

DENTIST PROFILES

Dr. Kristina Chandler,
Dr. Lauren Stewart,
and Dr. Ashley Hill

McDonough Center for Family Dentistry

Our mission at McDonough Center for Family Dentistry is to change the way you think about going to the dentist. First and foremost, we've designed our offices with our patients in mind: private treatment rooms, convenient weekend appointments, flat-screen TVs, and complimentary beverages in the waiting area. Going to the dentist can be stressful, so why not make it feel a little more like home?

We didn't stop there. Today's families are busier than ever, as our doctors know from experience, and it can be difficult to fit everyone's dental visits into a busy schedule. That's why we're truly a do-it-all practice, with an orthodontist, an oral surgeon, root canal specialist,

pediatric dentistry, sedation dentistry (even for cleanings), and multiple skilled general dentist on staff. Whether you're in need of a routine cleaning and checkup, root canal therapy, or even dental implants, we can help! We also accept most dental insurances and offer flexible payment plans, because we understand that low monthly payments can help you afford the dental treatment you need when you need it.

In late 2010, we opened Hiram Center for Family Dentistry. We're excited to bring our unique blend of small-town comfort and big-city dental care to the families of Hiram, especially with our newly expanded team. Dr. Lauren Stewart, Dr. Ashley Hill, and Dr. Kristina

Chandler are knowledgeable and compassionate dentists who honestly make a difference in their patients' lives. Call one of our conveniently located offices today to schedule appointments for you and your family.
